## What's new?

### TAKING CARE OF BUSINESS

CRC has been laser-focused on rebuilding and establishing new and existing relationships. We continue to drive our "People not parts" initiative and remain optimistic about continuing to expand our relationships with our customers. CRC is thrilled to introduce our new Business Development Manager, Joshua Aberant. Josh comes to CRC with an extensive background in manufacturing and with a background in chemical processing. With more than 5 years of industry experience, CRC is delighted to welcome Josh to the team.

Keep an eye out for Josh as he continues to diligently work on reaching our customers. For questions on our processes, contact Josh Aberant at [jaberant@chemresearchco.com](mailto:jaberant@chemresearchco.com), or for quotes or estimations, feel free to email at [rfq@chemresearchco.com](mailto:rfq@chemresearchco.com).

## PRESIDENT'S CORNER

CRC is working hard to continue to deliver the best quality and turn times in the business. We are delivering on our promise to invest in our employees through educational and professional development opportunities, which, in turn, will help all our customers. Labor shortages have hit every industry, but our main workforce continues to be consistent and tenured.

We are currently delivering on some major CAPEX expenditures that have been ongoing for over a year, which will help with quality, turn times, employee satisfaction, and safety. It's an exciting time to be a CRC employee!

Everything we do is to make sure you can deliver on promises to your customers. Stay connected to CRC, and we can move mountains together.

Tony V. Bouie  
President/CEO

**THEN AND NOW...**

CRC is thrilled to share the most recent updates to the CRC's Paint Booth. CRC recently invested in making the paint room climate controlled and added a twist for an additional facelift to the floors. Our CRC Paint team was pretty ecstatic that the entire paint room was repainted to make it more aesthetically pleasing. As a result, CRC has seen an increase in quality and a decrease in paint waste, more so now during the summer heat. Thank you, CRC Paint Team, for the extra notch on the cosmetic upgrade. Well done!
